

Call for Projects, part of an EU-funded project on Circular Economy in the Built Environment in Mauritius & Rodrigues.

This Call is issued under the project "Implementation of the Circular Economy Roadmap – Republic of Mauritius", implemented by Expertise France, and aims to award grant contracts to organisations active in the construction value chain in Mauritius and Rodrigues.

Main objectives:

The call aims to accelerate the transition to a circular economy in the construction sector by supporting concrete, inclusive and replicable circular solutions, in particular to:

- Strengthen cooperation between public and private actors in the construction value chain and build MSME capacity and collaboration
- Divert construction and demolition waste from landfill/illegal disposal, in line with the waste hierarchy
- Demonstrate and scale up reuse and recycling practices in construction and demolition activities
- Strengthen capacities to measure and monitor circular economy and waste management impacts
- Promote inclusive entrepreneurship, with a focus on women-owned/led businesses
- Support sustainable, replicable models, including potential replication in Rodrigues

Funding available:

- Total envelope: €330,000
- Grant amounts: between €50,000 and €110,000
- Minimum co-financing: 20%

Key dates:

Information session - *these sessions are organised to provide further information and answer questions on the technical, administrative and financial aspects of the call:*
